Japanese Disaster Binds That Nation To The United States

Earthquake Offering By America Achieves Dream of Statesmen

TOKIO, Oct. 29.—(Copyright)—"The Japanese earthquake effected understanding with America which the ablest men of both America which the attempted to obtain by diplomatic means," Admiral Yamamoto, prime minister of Japan, told Karl Bickel, president of United Press. In the first interview since he was made premier, he declared that Japan intends to rely principally on her own resources for rebuilding. The government will soon make public a concrete plan of reconstruction. Yamamoto expressed gratitude for American aid in the quake catastrophe.

Plans are Being Made For the Walton Trial

OKLAHOMA CITY, Oct. 29.—Plans for the prosecution of Governor J. C. Walton, suspended executive, were under way here today by the House board of managers in preparation of the opening of the hearing before the Senate Thursday.

Filing of a general demurrer followed by plea of not guilty to the twenty-two House impeachment recommendations was believed to be the line of action contemplated by the Walton defense, according to representative Tolbert, member of the House board of managers, House prosecuting body, here today.

Pleadings will be entered at 10 o'clock Thursday morning by the Walton defense in answer to the summons issued to the suspended executive last Thursday.

Farrell Lists Leading Teams On the Gridiron

F. HENRY F. FARRELL (United Press Staff Correspondent) NEW YORK, Oct. 29.—Notre Dame, Michigan, California, Yale, Texas, Cornell, Dartmouth, Syracuse, Illinois and Chicago now stand as the major undefeated eleven of the country.

Notre Dame, Michigan, California and Cornell perhaps come close to being the class of the undefeated teams. The big eleven swing into the hard November schedule.

Penn State and West Virginia, two of the strongest teams in the East slipped momentarily from the sectional leaders' status when they engaged in a tie game.

Harvard's defeat by Dartmouth and Princeton's tie game with the Navy after losing to Notre Dame made Yale the only undefeated team of the "Big Three" and made prospects bright for a Yale championship in the old sacred circle.

Dartmouth, for the time being, is up with the best teams in the country because of the crushing defeat it gave Harvard Saturday but just ahead is the Cornell game next Saturday, which will be a big test for both teams.

Notre Dame, if it is possible to arrive at such a deduction, looks like the big team of the year this side of the Pacific coast. No team in the country has equalled the record of the Notre Dame eleven which on successive Saturdays routed the Army, Princeton and Georgia Tech.

There are no figures available by which Notre Dame and California may be compared, but the two teams may meet in a post-season game that should come closer than any game in the past to give a line on the "national champion."

California, Michigan and Washington are the only major teams in the country that have not been scored upon, but Dartmouth, Syracuse and Wisconsin have uncrossed goal lines.

Cornell is the leading scoring team in the country with 187 points. Colgate has scored 168, Syracuse 164, the Army 162 and Notre Dame 161.

Cotton Mill Expert Coming To Mexia To Help In Final Efforts To Build Textile Industry In This Community

The campaign for the successful conclusion of the movement to make the Mexia Textile Mills a reality will really be opened Thursday of this week when Mr. J. Perry Burrus of Dallas and McKinney will visit Mexia, addressing the Salesmanship Club meeting, which has been moved up from Wednesday to Thursday of this week, in order to meet Mr. Burrus' convenience. There will be no noon meeting of the Rotary Club on Thursday as that Club will have a ladies' night at the Reunion grounds, and on account of the probable size of the meeting the luncheon will be held at the Hurdleston Hotel in the room formerly used by the luncheon clubs of the city and will be at 12:15 p. m. Mr. Burrus, in addition to being chairman of the Industrial Committee of the Texas State Chamber of Commerce, is president of the McKinney cotton mills and President of the Dallas Textile Mills. The McKinney cotton mills have been in successful operation for a number of years, the Dallas Textile Mills will begin operations in a month or two. Mr. Burrus is one of the most successful cotton mill men in Texas and has just returned from an extended trip to financial centers of the East, as well as the Textile Districts of the New England and Southeastern states.

A circular letter is being sent from the Chamber of Commerce office to the members of the Board of Directors of the Chamber of Commerce Textile Committee, the members of the Rotary Club and a few of the subscribers to the cotton mill stock. The price of the luncheon will be 75c which can be paid at the door. The time will be 12:15 Thursday, November 1st. Request is made that those desiring to attend this luncheon phone their reservations either to the Chamber of Commerce office, phone 81, Dick Wagner, secretary of Salesmanship club, phone 389 or Jerry Cason, secretary of Lions club, phone 220.

The visit of Mr. Burrus is entirely disinterested so far as he is concerned and his visit here is in his capacity as Chairman of the Industrial Committee of the Texas Chamber of Commerce, of which the Mexia Chamber of Commerce is a member and he is actuated only by a desire to forward the cotton mill development in Texas.

As only about 85 to 100 can be accommodated at this luncheon, those who want to come had better phone early.

Navy Anxiously Awaits News From Canal Zone As To Fate of Five Men

WASHINGTON, Oct. 29.—The Navy Department here today anxiously awaited further reports from the Panama Canal Zone, as to the fate of the crew of the submarine O-5, which was sunk yesterday in Limon Bay at the northern entrance of the canal, in a collision with the United Fruit liner Abangaree. Five men have been reported missing and it is feared that they went down with the submarine. The missing are: Lawrence Brown, chief electrician mate, Tingsboro, Mass.; Clyde E. Hurdles, motor mechanic mate, Maninto, Ill.; Henry Brenutt, torpedo man, Grand Island, Vt.; Thomas T. Metzger, fireman, Philadelphia, Pa.; Fred C. Smith, mess attendant, Cristobal, Ariz.

LATE "SCANDALS"

FORT WORTH, Texas, Oct. 29.—Prosecution on a fraud charge of E. C. Kingsbury, oil promoter and former prominent politician, is to be started in Milwaukee after the completion of Dr. Cook's trial. It is learned further that grand jury action against promoters in Fort Worth and Texarkana is expected next month. Cook's trial is not to be completed for two weeks, is indicated.

Shrine Minstrel To Be Given At Mexia High School Auditorium At Eight O'clock Tonight

Five Killed In Clash in Germany

BERLIN, Oct. 29.—Five persons were killed and scores injured in clashes between separatists and German citizens loyal to the Reich in Bauschheim, a dispatch from Mayence said today.

The fighting occurred when detachments of separatists from Rusehshelm attempted to confiscate live stock from the villagers.

Employees from the stock yards repelled the first separatist attack but the plunderers returned later with reinforcements and burned buildings and crops on three estates.

The wounded were transported to hospitals in Mayence.

Hoppe Favorite Before Billiard Game for Honors

NEW YORK, Oct. 29.—Willie Hoppe, world's champion at 182 ball line billiards, is the favorite to retain his title in the international championship which starts tonight in the Pennsylvania Hotel.

The contenders for Hoppe's title are Jake Schaeffer, Welker Cochran, Edouard Hormans, Roger Conti and Erich Hagenteicher.

Hoppe who has been the champion off and on for seventeen years, will open the tournament with Hagenteicher as his opponent.

A full house is expected to attend the Shrine Minstrel which is to be held at the High School auditorium tonight. The curtain will be raised above the darktown scene at 8:00 o'clock promptly.

Tickets are on sale today at the Cox Forrest Drug Company and according to Secretary Werner, it will be much better to secure tickets downtown. This will eliminate a rush at the window at the High School auditorium.

The Mexia Nobles have been rehearsing their parts for the past few days and it is said will go upon the stage tonight complete masters of their own minstrel.

The program is varied and should be one of the best minstrels ever put on by local talent in Mexia.

The show has been widely advertised and many out of town spectators are expected.

TEXAS BEHIND IN COTTON MILLS

Figures are often considered dry and uninteresting, but some times when only given superficial study, they carry volumes of information. The following tables are gleaned from the "Blue Book of Southern Progress" for 1923, published by the Manufacturers Record of Baltimore, and are taken from Government Census reports, State tax rolls, and other sources of information generally considered reliable.

Comparisons are made between the states of Georgia, North Carolina, South Carolina and Texas, in order to show comparative progress in each state, in financial resources in 1900 and 1920, assessed valuation of property in 1920 and 1922, cotton production in bales in 1900, 1920 and 1922 and the number of cotton mill spindles in operation in 1900, 1920 and 1922.

Financial Resources in 1900

Georgia	2,568,594
N. Carolina	5,281,268
S. Carolina	5,095,311
Texas	173,182

It will be noted in the foregoing tables that, even making allowance for the size of Texas, she has far outstripped her rivals in every respect, except in the building of Cotton Mills.

In fact, compared with the other states she is an overshadowing giant except in cotton mill production.

It will be noted especially from the table showing the production of cotton, that the boll weevil has made serious inroads in Georgia and South Carolina from 1900 to 1922 and this reduction will more than likely be apparent to a greater degree in N. Carolina in 1923.

Texas has the advantage over these states in location, so far as production of the raw material is concerned, and so far as expert business likely to be developed through the Panama Canal. She has better labor conditions than the Southeastern states when they first start out building cotton mills and the climate is better and more conducive to health. In fact, there seems to be every advantage in favor of Texas.

Those who have made a study of the situation believe that the excessive amount of rain fall in the South eastern states, as compared to Texas and the additional fact that timber is plentiful will tend to increase the boll weevil menace for those states to such an extent that agriculturists will be driven to other crops than cotton. In fact, in some counties in these states, cotton farming is almost abandoned. At Enterprise, Ala., a monument to the Boll Weevil commemorating the emancipation of the farmers from the cotton growing has been erected.

A Terrell Sunday School teacher thinks it a sin to walk or drive on some of our automobile speed-ways because it is a gamble with death.

No gamble about it at all. Old time gamblers hold that it is not gambling when you have a dead thing, and in this case the pedestrian has no chance to win.

Railroad Commissioner Gilmore announces he will not be a candidate for governor next year. The announcement gives to the commissioner a rather peculiar distinction, in that he is the only man in Texas up to this time who has declared he will not run for governor, all the rest, apparently, being either outspoken candidates or in a sceptive mood.—Denison Herald.

Pity that Clarence does not get in the race. He is big enough for the job and would make the other candidates stand up and take notice.

comes home from his work of the day, the wife and kiddies meet him at the door and give him a loving welcome, and the house cat rubs against his leg in friendship, and the pup climbs all over him. It is the place where the best in people is manifest, and where love has full sway. The North Texas definitions shock our understanding of what home is.

It is a delectable picture, the one drawn by the East Texan domesticist. It is in sweet contrast to the chromos drawn by the Mineral Wells and Terrell artists. Home certainly is not what the Mineral Wells brother represents it as being, nor is it anything like the Terrell contemporary makes out. Even the Palestine contributor misses the mark to some extent. What he says about the pup climbing over the man of the house subtracts so much from the value of the scene he depicts that State Press feels compelled to protest. If the pup climbs over the head of the house, the result is that fleas are transferred from the dog to the man, and pretty soon the man will begin itching and make his home the kind of place the Mineral Wells savant described. Also if the dog in the house imparts any portion of its etiquette to the family, the members thereof will begin acting in the rugged manner mentioned by the Terrell realist. The Palestine viewpoint might be allowed to stand if the dog is left out of it. Put the dog out, and let the dog wagon have him.—State Press.

This seems to settle the question in all of its angles, so let's let it go at that.

The Best Foods
Children ever get—Puffed Grains

Quaker Puffed Rice seems a food confection. Each grain is an airy, nut-like puff, 8 times normal size. It is fascinating in its texture and its taste. There is no breakfast dainty ever served that children like so well.

Each grain steam exploded

Quaker Puffed Wheat is whole wheat steam exploded. Over 125 million steam explosions are caused in every kernel. They are made by Professor Anderson's process—to fit each food cell to digest.

These airy morsels, flaky and savory, make whole wheat enticing. They make the milk dish tempting. Quaker Puffed Wheat in milk is the finest night dish, and the greatest, people ever get.

Minerals—vitamines—bran

Remember those essentials. Whole wheat supplies 12 minerals which growing children must have. It supplies their need of bran. And milk is rich in vitamins.

These are factors which people should get daily and in plenty. Then serve in this delicious way.

All will revel in Quaker Puffed Grains—eat them morning, noon and night.

VIOLA DANA IN "JUNE MADNESS" SHOWS RUNAWAY BRIDE FASHIONS

Baby George, when he wrote the scenario of "June Madness," and Harry Beaumont, when he planned the scenes for this tale of jazz and gladness, insisted upon thrillers for the bride's wardrobe, but of course, being men, they couldn't specify. They knew they could safely leave this part of the photoplay's thrills to Viola Dana, the little Metro star coming to the Grand Theatre.

"This scenario," said Miss Dana, "calls for bride's costume. Error No. 1, and correct designation being runaway bride's costume. There's a difference, Mr. George, and don't forget it. Mr. Beaumont. Clinging bride: demure, weepy, timid things—you get the effect, of course. But runaway bride—bride giving unworthy bridegroom the ozone at the altar—ah, we must plan and pattern differently for this boydenish creature."

And so, from dainty boudoir to non-wedding wedding and beyond, Miss Dana sets this year's fashions for runaway brides. No wavering bride who plans a last minute breakaway at the altar can consider herself completely successful without in some measure following Miss Dana's "June Madness" gown suggestions.

Let a mere news writer struggle, however, to give some idea of the material and patterns of Miss Dana's wardrobe. First the star at dinner—the gown of pale pink chiffon, heavily embroidered in white silk. Panels of the material, flowing in soft drapes down the sides and back of the gown, are trimmed with the same embroidered flowers.

The wedding gown: Soft Spanish lace, with rich Duchesse satin for the foundation, and panels of the lace draped around the sides and front. The skirt, scalloped, is long, but convenient to handle when running.

Another dinner gown, this time a po-talita affair. Sleeveless bodice, with a panel forming the back, reaching to the edge of the skirt. The skirt, made in overskirt style, is finished in deep scallops. This is a suitable gown for dancing for joy at having wiped the slate clean of Mr. OWAB (meaning "Oh what a bridegroom"). Miss Dana does such a dance and in finishing it she wears well there is really a limit to what the writer can describe.

Springfield Lodge Has Great Part In Program Of Progress Of Mexia And Limestone County

By N. P. HOUX

The Masonic Order deserves much credit for its part in the upbuilding of Mexia and this section, as will be seen from a careful perusal of the following data on the different branches having organizations here.

Springfield Lodge No. 74

As the number of this lodge increases, it is one of the oldest in Texas, having been organized at Springfield, then the county seat of Limestone county, January 24th, 1851. The first officers of the lodge were: Judge D. M. Prendergast, at that time district judge, W. M. E. A. Magee, S. W. James M. Davis, J. W.

The lodge continued to exist and grow at Springfield for more than twenty years, or until the H. & T. C. railroad came along and missed Springfield several miles and established the town of Mexia in the early part of 1872.

The lodge was moved to Mexia in the spring of 1872, moving its building, a two story frame, and establishing its home on the site of the present new Baptist church, where it remained for several years, and the building was used not only for lodge purposes, but the several religious denominations held services on the lower floor, each denomination having a Sunday, and a private school, presided over by the late Milton Park of Dallas, a brother of our townsmen, J. Howard Park, held forth there also until the public schools were organized some years later. Thus the Masonic Order had a large part in the establishment of a Christian community in this then sparsely settled part of the State.

Some years after this, when the brick building now occupied by the Farmers State bank, was built for the First National bank, the Masonic order, then consisting of the Blue Lodge and Chapter of Royal Arch Masons, bought the upstairs of the building, and had its home there until January, 1922, when the old home was sold and the three story brick building, 313 Commerce street, was purchased and the Masons now have a home that would be a credit to a city much larger than Mexia. The title to this property is vested in a board of trustees, selected from the three branches of the order, composed of R. B. Bass as chairman, Judge W. M. White as secretary, John H. Sweat as treasurer, J. F. Denning and Major N. P. Houx.

The lodge room is on the third floor while the Mexia Shrine Club have the second floor for a meeting place

The walls of the lodge room are lined with pictures of members who have either served as Master or were Royal Arch Masons. Some of the most prominent men of the county are there represented, such men as Capt. J. W. Fishburn, founder of the first newspaper in Mexia; Capt. R. M. Love, sheriff of the county, United States Marshal and later State Comptroller, in which office he was assassinated by a disappointed office seeker who then took his own life; L. L. Foster, one time speaker of the House and later president of the A. & M. College; Dr. M. B. Kemp, Dr. Thomas, Dr. J. M. Lewis, Dr. J. P. Cook, Dr. J. H. McCain, M. L. McDonald, W. H. Beasling, Geo. Archer, Mr. Tyus, J. A. Arvin, Judge D. M. Prendergast, founder of the Prendergast, Smith bank, John Karner, A veteran of the battle of San Jacinto, and others, prominent pioneer citizens of Mexia, now dead. There was also another veteran of the San Jacinto battle who was a member of the lodge, Mr. Alfonso Steele, who died just a few years ago.

The lodge has at present a membership of about 160, and the following are the present officers:

C. S. Phillips, W. M.
T. O. Meador, S. W.
Rodney Tidwell, J. W.
Julius Nussbaum, Treasurer.
J. Frank Cogdell, Secretary.
G. H. Pierce, S. D.
Rod Fielder, J. D.
T. A. Griffith, Tiler.

Following are the living Past Masters, still members of the home lodge, but some residing in other cities: J. W. Blake, W. J. Bryant, C. J. Kaul, R. W. Cosnahan, J. F. Denning, T. A. Griffith, Dr. R. B. Jackson, N. E. Meador, J. D. Arrington, David Murphy, Julius Nussbaum, L. I. Gatlin, A. M. Stevens, J. R. Van Winkle, Major N. P. Houx, S. N. Forrest, Dr. H. Clay Watson, Jas. H. Collins, Geo. M. Tidwell, Guy Herring, M. B. Webb.

Some of the older members still living are J. B. Best, J. D. Barrett, J. W. Blake, L. B. Finch, Capt. D. F. Hughes, Carey May, Jos. Nussbaum, Capt. Rado Steele, Capt. J. P. Yeldell, H. C. Griffith, and others who might come under this head.

The lodge is steadily growing, having work one or more nights each week, and is doing considerable courtesy work for other lodges since the coming of the oil boom, and the lodge room is a popular meeting place for Masons from all parts of the country who are here helping to build a greater Mexia.

Royal Arch Masons
Mexia Chapter No. 131, Royal Arch

Masons, was organized June 18, 1874, when Mexia was yet a young village, and has grown to its present membership of about 150, and is still growing. Capt. J. P. Yeldell was in the first trio that was initiated after the Chapter was organized, forty-nine years ago, and is still a regular attendant, seldom missing a meeting.

The present officers of the Chapter are:

M. B. Webb, H. P.
C. S. Phillips.
T. O. Meador, S.
A. M. Stevens, Treasurer.
Claude Nussbaum, Secretary.
Past High Priests still living are: N. E. Meador, F. A. Hill, Julius Nussbaum, Judge W. M. White, T. A. Griffith, Dr. R. B. Jackson, Dr. Chas. L. Watson, David Murphy, Dr. F. P. Peyton, J. D. Arrington, W. W. Barrett, J. F. Denning, L. I. Gatlin, Major N. P. Houx, Geo. M. Tidwell, Guy M. Herring, Capt. J. P. Yeldell.

Knights Templar

Cour de Lion Commandry, Knights Templar, was chartered April 22, 1909, and has a growing membership, drawing from the cities of Teague, Wortham, Coolidge, Groesbeck, Thornton, Kosse and Bremond, its present membership being more than 200, about thirty new members having been added during the last few months.

Present officers are:

W. R. Storey, E. C.
G. W. Perkins, Genl.
Guy Herring, Capt. Gen.
A. M. Stevens, Treasurer.
H. W. Freeman, Recorder.

Past Commanders still on the roll are: Judge W. M. White, Dr. Chas. L. Watson, David Murphy, J. F. Denning, Dr. F. P. Peyton, Major N. P. Houx, and John H. Sweat.

IF BACK HURTS BEGIN ON SALTS

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

—(Adv.)

Latest News From The Oil Fields

Kosse Will Some Day Be A Big Oil Field

Now that the Powell oil field like Mexico has demonstrated what a wonderful producing territory is to be found along what is termed the "fault line," great interest is being manifested as to just where does the fault line run by many wide-awake operators.

Development had been going on at Powell within less than a mile of the big pay for more than twenty-five years, but it was only by accident the fountain of liquid gold was discovered the early part of this year. Now the field has reached the almost unheard of figure of over 300,000 barrels daily and many predict it will reach the half million mark. Yet with this tremendous output the Powell field is less than two-thirds of a mile wide and in many places only about a quarter of a mile wide. In length it is now more than seven miles long, and headed on towards the Mexia field. It is thought sooner or later it will connect with Currie, Richland and Mexia, then Groesbeck and Kosse.

Speaking of Kosse, a well posted oil man who spent much time in Kosse during the excitement, writes us that he feels sure this big fault line oil field passes Kosse, either just east or west of the Humphreys-Jones gusher, which was no doubt a crevice well, the oil coming through a crevice from this tremendous fault line deposit. It is now possible to look back and analyze the work done during the boom period, and it is easy to see that with but two exceptions no drilling was done except as close to the discovery well as it was possible to get. These two exceptions are the Mason well on the Bassett track about a mile and a half northwest, and the Dr. Cook well nearly two miles to the southeast. The Mason well had a splendid showing, as did the well on the Denman survey, more than a mile southeast of the Mason. This wonderful fortune producing fault line field could easily run between these two wells where it still awaits some lucky finder. Just as easy could this dazzling fortune be concealed between the Dr. Cook well and the Foy well close in on the town-site, southeast of the discovery well. This Foy well was only drilled about 1500 feet deep but it made more gas than any well in the field unless it was the Dr. Cook well. The fact is the Foy well and the Dr. Cook well made more gas than all the other wells in the field combined, and there is ample room between these two wells for the fault line oil field to lay waiting for the man with the money and nerve to dis-

cover it. Right along to the north between these two wells is the old A. Woods homestead property. During Mr. Woods life-time, he often spoke of finding oil showings on his land after a heavy rain. Northeast of this land in the Eutaw community are mineral springs, broken formation and geological signs indicating mineral deposits.

The Humphreys-Jones well was freaky, but the amount of oil it gushed at first indicated that it came from a source of plenty. The freakish action was doubtless caused by the oil passing through a crevice which caved as the oil rushed by when the well was allowed to flow. According to Col. Humphreys own statement at times it had the force of a subterranean cyclone and almost tore the derrick down, while at other times it was quiet. It is easy to see how a crevice well caving could act this way.

There is unquestionably a vast oil deposit somewhere close to Kosse, where this fault line runs, that will make millions for someone, some time. Who will be the lucky finder?

SAGE TEA TURNS GRAY HAIR DARK

That beautiful, even shade of dark glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—(Adv.)

GREEN WELL IN FREESTONE IS A PROMISING PROSPECT

According to parties returning from the Green well in Freestone County, rainbows are plentiful on the slush pit there, following the completion of the job there. A three weeks fishing job was completed the past week and the hole at a depth of around 3500 feet bears much promise of completing

for a producer, according to authoritative sources. The well it being drilled by Ohio parties. Mr. Carpenter is trustee. It was spudded in June 26, 1922. Gas was noticeable twice on the way down. The Austin chalk was found at a depth of 2540 feet and passed out of at around 2900. At around 3500 feet, the drill was passing through hard black shale and gumbo. The Green well is about 5 miles east of Teague and about 20 miles east of here.

To Enforce Blue Laws in Corsicana

CORSICANA, Texas, Oct. 29.—If you've got the blues steer clear of Corsicana on Sunday.

For a set of Sunday closing laws county attorney Ballard says he is going to strictly enforce are of the deep-seated shade.

They say: That drug stores will be allowed to sell nothing but drugs, medicines and milk and cream drinks on Sundays. Sale of cigars and cigarettes will not be tolerated.

Restaurants, boarding houses, and similar establishments come under the gun too.

To Play Golf With A "Doctored" Ball

MINERAL WELLS, Texas, Oct. 29.—The second annual Invitation Golf Tournament of the Mineral Wells Golf and Country Club opened here today to last three days.

Some seventy five or more entrants are expected to be on the links by this afternoon.

A new wrinkle in the ancient Scottish pastime will be tried out on the links during the tournament when a ball, treated by a special preparation, the invention of a local man, will be put into play. The ball is coated so as to be plainly visible at night. Should the innovation prove practical it will revolutionize the sport, the inventor claims.

ANTI BOLL WEEVILS HEADQUARTERS IN N. O.

NEW ORLEANS, La., Oct. 27.—The permanent organization to fight the cotton boll weevil will be known as the National Boll Weevil Control Association and will have its headquarters in New Orleans, the three day conference of representative business, agriculturists and government experts which ended here yesterday, decided. The organization is to be under the advisory administration of a committee of twenty-two men to be chosen from the ranks of the enterprise represented at the convention.

At a meeting of the committee to be held Nov. 7, a salaried manager for the New Orleans office will be chosen.

P. J. Bounds, chief linotype on the News, went up to Dallas Sunday and was accompanied home by his wife and children, who have been visiting in Corsicana for the past three weeks.

Mrs. J. B. Mathis is spending the week end in Dallas.

What A Woman Can Do With Her Feet

GRANGER, Texas, Oct. 29.—Armless—yet she writes, sews and feeds herself.

Miss Nanny Cook, 21 years old Granger girl, has accomplished these apparently impossible feats—all with the use of her toes.

Handicapped by the loss of her arms since birth, and with her legs deformed, Miss Cook determined that she would not be overcome by these obstacles.

Day after day she cultivated the use of her toes until she could write. Then she tried sewing and in time developed herself until she is no longer helpless. She is a high school graduate.

Few are her equal with a needle. A beautiful nightgown, made by her toes won first prize in the woman's department exhibits at a recent Texas state fair.

Americans Applying For Naturalization

HOUSTON, Texas, Oct. 29.—Applications for United States citizenship are coming in at an unprecedented rate, according to federal district clerk Masterson here.

Twenty-six foreign countries are already represented in the application blanks.

Four American women, having married foreigners, are among those applying for citizenship papers.

Hampton Steele, president of the Native Sons of Texas, of Thornton, spent Friday and Saturday in Mexia, visiting friends and attending to business in connection with the Native Sons.

C. M. Church, foreman of the News mechanical department, took in the fair Sunday and will spend a couple of days with his family in Fort Worth.

Mrs. Jim Watson is a week end visitor to Dallas.

CITATION BY PUBLICATION

THE STATE OF TEXAS,

To the Sheriff or any Constable of

Limestone County—Greeting:

You are hereby commanded to

summon S. W. Johnson, J. W. McWilliams, H. P. Tate by making publication of this Citation once in each

week for four consecutive weeks previous to the return day hereof, in

some newspaper published in your County, to appear at the next regular term of the District Court of Limestone County, to be held at the Court House thereof, in Groesbeck, Texas, on the 12th day of October, A. D. 1923, in a suit, numbered on the docket of said Court as No. 4007-B, wherein A. E. Rosson and J. L. Cogdell are Plaintiffs and S. W. Johnson, O. L. Lusk, W. R. Jones, J. W. McWilliams, H. P. Tate, and Texas Trust Company are Defendants, and said petition alleging that on January 21, 1921, plaintiffs jointly executed a drilling contract and contract for lease to be executed and delivered to defendant, S. W. Johnson; that said contract is of record in Volume 111, page 206, deed records of Limestone County, Texas. That in pursuance of said contract plaintiffs did execute and deliver to S. W. Johnson (whose initials in A. E. Rosson instrument by inadvertence were reversed and show as W. S. Johnson) Oil and Gas leases covering Blocks or lots 5, 7, 12, 13, 19, 26, 27 and South half of Lots 20 and 21, and 200 acres out of the P. Lloyd and D. Varela surveys, together with lots 47, 48, 49, 50, 51, 52, 53, 54, 55 and 57 (as shown by map and plat of the A. E. Rosson 1072 acre ranch and a portion of the J. L. Cogdell Estate. That the total acreage of both leases was 684 acres, 40c, being out of the Rosson land and 234 out of the J. L. Cogdell Estate, that the lease contracts are recorded in the deed records of Limestone County, Texas, in Vol. 112, page 173, and Vol. 113, page 387, which records give complete descriptions of the lands leased. Each of said leases provides as follows: "Should the first well drilled on the above described land be a dry hole, then and in that event if a second well is not begun on said land within twelve months thereafter, this lease shall terminate as to both parties, unless the lessee, on or before the expiration of said twelve months, shall resume the payment of rental in the same manner as heretofore provided."

That said S. W. Johnson and his assigns did drill one well on said lands in accordance with the conditions of said drilling contract, and leases; that said well was finished and abandoned before and on the 18th day of August, 1921, same being a dry hole or non-producing well.

That no other well was begun on said premises until more than one year after the abandonment of said well on August 18th, 1921; that no one paid any rental on said land or any portion of it, on or before the expiration of one year after the said abandonment, nor has any one paid a rental thereon until this day, thereby forfeiting all rights under the said lease.

Plaintiffs further aver that said S. W. Johnson and his assigns assigned to defendants W. R. Jones, O. L. Lusk, J. W. McWilliams and Texas Trust Company, at several and diverse times various and diverse interests in various and different and in overlapping acreages covered by the above said leases and leased premises; that though some of them have assigned portions of their interest and released parts of their respective interests, yet each party named still holds in his name certain purported respective interests in parts of the above said premises and leased acreage, having failed and refused to release same in accordance with the law applying to lessees and their releasing such interest on forfeiture of same or an abandonment of efforts to develop same. That said H. P. Tate avers certain interests existing under a memorandum agreement between himself and W. C. Rosson, who had no legal right or power to bind said plaintiffs or either of them, thereby depriving no interest under any instrument of writing given and executed by W. C. Rosson.

Plaintiffs aver that they have been damaged in a sum of \$500.00 in that they expended money and attorney fees in bringing this suit as well as loss of time to themselves, all of which damage amounts to \$500.00 or more.

Wherefore, premises considered, plaintiffs pray the court that citation be issued to defendant, and that upon a hearing that they be granted judgment declaring all said leases to S. W. (W. S.) Johnson, together with all assignments under said leases or either of them, null and void and of no further force or effect, and for judgment in the sum of \$500.00 as damages against defendants for their having failed and refused to release their purported in-

terests in and to said lands, and for their costs in this behalf incurred, and such other relief as they may be entitled.

Herein Fail Not, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Groesbeck, Texas, this 12th day of October, A. D. 1923.

You are hereby commanded to sum-

mon Rufus Ellis by making publication of this Citation once in each week for

four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Limestone County, to be held at the Court House thereof, in Groesbeck, Texas, on the first Monday in November, A. D. 1923, the same being the 5th day of November, A. D. 1923, then and there to answer a petition filed in said Court on the 3rd day of October, A. D. 1923, in a suit, numbered on the docket of said Court as No. 3796-B, wherein Elmata Ellis is plaintiff, and Rufus Ellis is defendant, and said petition alleging that plaintiff and defendant were legally married March 8th, 1917, and lived together until about two years ago; that defendant pursued a course of cruelty and abuse toward plaintiff that was of such a nature as to render their further living together insupportable; Defendant failed to support plaintiff, failing to supply her with either food or clothing; that he often abused plaintiff physically by fighting and whipping her, and that he associated with other women in adulterous actions.

Wherefore, plaintiff prays that defendant be cited in terms of law to appear and answer, and upon hearing that she have judgment dissolving the bonds of matrimony between plaintiff and defendant.

Herein fail not, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

CITATION BY PUBLICATION

THE STATE OF TEXAS,

To the Sheriff or any Constable of

Limestone County—Greeting:

You are hereby commanded, that you

summon by making publication of this Citation in some newspaper published in the County of Limestone if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof, Jesse Bond and Abe Goodman whose residence is unknown, to be and appear before the Hon. County Court, at the next regular term thereof, to be held in the County of Limestone, on the 5th day of November, A. D. 1923, same being first Monday in November, 1923, at the Court House thereof, in Groesbeck, then and there to answer a petition filed in said Court, on the 25th day of July A. D. 1923, in a suit numbered on the docket of said Court No. 948, wherein D. A. Kerzee is plaintiff, and Jesse Bond and Abe Goodman are defendants.

The nature of the plaintiff's demand being as follows, to wit:

Plaintiff alleges, that on October 25th, 1922 defendants made, executed and delivered to this plaintiff their certain promissory note for the sum of \$633.17, payable to the order of plaintiff at Mexia, Texas, due and payable on the 10th day of March, 1923 bearing interest at rate of 10% a year from its date until paid, and providing for 10% additional on the amount of principal and accrued interest as attorneys fee and to pay all expenses of collection and costs of court, if it should not be paid at maturity, whereby defendants became liable and bound, individually and collectively, to plaintiff and promised to pay to plaintiff the sum of money specified in said note, all accrued interest, and attorney fees and costs of collection, including court costs, according to the tenor and effect thereof.

That plaintiff has placed said note in the hands of attorneys for collection and has contracted and agreed to pay them 10% stipulated for in said note, same being reasonable and the usual and customary attorney fee in such matters. That said note is past due and unpaid; and defendants, though often requested, have failed and refused heretofore and now fail and refuse to pay said note or any part of it, to plaintiff's damage in the sum of \$1000.00, in that he has lost his principal sum, his interest thereon and the investment and earning power of said principal and interest since March 10th, last, and has contracted to pay the attorney fee provided for in said note and is under obligations to pay the court costs, etc.

Wherefore, plaintiff prays the court that defendants be cited to appear and answer this petition, and that he have judgment for his principal sum of \$633.17, for interest thereon since October 25th, 1923 at rate of 10% a year, for his attorney fees as provided for in said note, for his costs of suit, for all costs expended in this behalf, and for his damages over and above these items, making a total judgment of \$1000.00, and for such other and further relief, general and special, in equity and in law that plaintiff may be justly and legally entitled to, and in honor bound will ever pray, etc.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this Writ with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Groesbeck, Texas, this 11th day of October, A. D. 1923.

TEHUACANA.
(In Dallas News)
The first mention of the name of Tehuacana by historians was back in 1707 when Phillip Nolan made a trading expedition for the purpose of obtaining wild horses for a Louisiana regiment, from the then Spanish territory. During this expedition he made a good map of the country for the purpose of trading with the Indians. This map located a tribe of Indians, called the Tehuacanas, on that part of the country between the Brazos and Trinity Rivers. These Indians had their headquarters near the place where Waco is now located. A creek five or six miles northeast of Waco is called by the name of Tehuacana. The Tehuacana Indians no doubt had their hunting ground all over the territory between the Brazos and Trinity Rivers. In this section about forty-five miles northeast of Waco is a ridge of hills consisting of a high knob (now Bald Hill) and two distinct ridges, on the sides of which are several good springs of living water. Here the Tehuacanas located and erected their wigwams near the springs. Here the first white men found them on their surveying expeditions about the year 1810.
Finding the Tehuacana Indians on the ridge of hills these men, in describing the country, named the ridges Tehuacana Hills. For a number of years this section was known as Tehuacana Hills. Soon after the white men found the Indians, the Cherokees then living in Cherokee County, had a quarrel with the Tehuacanas, but at that time. In the meantime the Lipans made a raid over in the Cherokee county and stole a large

herd of ponies and drove them off to the country beyond Parker County. The Cherokees followed, but failed to catch the thieves. They turned to go back home and decided to return by the Tehuacana Hills. Being angry at their failure to capture the ponies, and remembering their old grudge against the Tehuacanas, they made an attack on the Tehuacanas, who were unprepared and not expecting it. The Cherokees killed the entire tribe, excepting about six braves and six or eight squaws. The Cherokees burned most of the squaws and papooses while hid in their wigwams. One Cherokee would gather up an armful of grass, another would take a chunk of fire, the first would pile the grass in the wigwam, the other placed the fire and soon the work was done and the Tehuacana tribe was no more.
It is said that the youngest son of the old Tehuacana chief was carried off by those who escaped and afterward joined the Comanche tribe. Maj John Boyd of Kentucky having obtained a grant of land from the Mexican Government, located his league east of the Tehuacana Hills and including most of the hills. He located his land in 1836, but did not move here until 1847. By this time the country was reasonably safe from the Indians.
Some time in the early 50's, a son of Maj Boyd was standing on the high bluff on the west side of the hills. He suddenly saw an Indian emerging from the mesquite thicket, who walked about twenty steps from the bluff and stood still, looking over the landscape where the Tehuacana village once thrived near the big spring. The Indian stood about half an hour taking in all the changes that had been made.
Young Boyd approached him and spoke to him, but he turned not his head, nor even glanced his way, but suddenly turned about face and went over the bluff. Young Boyd watched him going west and he never for once turned his face back to the hills of his people. So far as we know this was the last of the Tehuacanas, a quiet and friendly tribe to the white man, who never came back to his old hunting grounds.
In the year of 1921, I learned that there was a very old Indian chief living near Anadarko, Ok., by the name of Jim Tehuacana. I wrote to the Indian Agent at that place and requested him to get the history of this old chief. He very kindly replied that Jim Tehuacana died on Aug. 8, 1918, at the advanced age of over 90 years. It is supposed that he was the young chief that escaped from the Cherokees. After Maj Boyd moved to Tehuacana Hills, the capital of Texas was to be located. He placed Tehuacana Hills on the ballot, but Austin beat Tehuacana Hills by two votes and the capital went to the banks of the Colorado River.
In the year 1869 the Cumberland Presbyterian Church of Texas decided to locate a church college and Tehuacana Hills again was placed on the ballot, and this time it won over the other points. In September, 1869, the school began under the name of Trinity University. Around this school a little town sprang up and it was called at first Tehuacana Hills, but at present it is known as Tehuacana. This is how Tehuacana got its name.

CARD OF THANKS
To all who were so thoughtful and tender, in our recent bereavement in the loss of our loving companion and daughter, Mrs. H. F. Phillips, we wish to extend our heart felt thanks. Our grief is too deep for earthly sympathy to extract from our stricken hearts, but the act of friend, the word of solace spoken and the lovely flower, are balms that soothe and evidence of man's humanity to man which make us grateful, indeed. May God bless you. H. F. Phillips, her husband.

Plans are Being Made For the Walton Trial

OKLAHOMA CITY, Oct. 29.—Plans for the prosecution of Governor J. C. Walton, suspended executive, were under way here today by the House board of managers in preparation of the opening of the hearing before the Senate Thursday.

Filing of a general demurrer followed by pleas of not guilty to the twenty-two House impeachment recommendations was believed to be the line of action contemplated by the Walton defense, according to representative Tolbert, member of the House board of managers, House prosecuting body, here today.

Pleadings will be entered at 10 o'clock Thursday morning by the Walton defense in answer to the summons issued to the suspended executive last Thursday.

Farrell Lists Leading Teams On the Gridiron

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, Oct. 29.—Notre Dame, Michigan, California, Yale, Texas, Cornell, Dartmouth, Syracuse, Illinois and Chicago now stand as the major undefeated eleven of the country.

Notre Dame, Michigan, California and Cornell perhaps come close to being the class of the undefeated teams—the big eleven swing into the hard November schedules.

Penn State and West Virginia, two of the strongest teams in the East slipped momentarily from the sectional leaders Saturday when they engaged in a tie score battle.

Harvard's defeat by Dartmouth and Princeton's tie score with the Navy after losing to Notre Dame, made Yale the only undefeated team of the "Big Three" and made prospects bright for a Yale championship in the old sacred circle.

Dartmouth, for the time being, is up with the best teams in the country because of the crushing defeat it gave Harvard Saturday but just ahead is the Cornell game next Saturday, which will be a big test for both teams.

Notre Dame, if it is possible to arrive at such a deduction, looks like the big team of the year this side of the Pacific coast. No team in the country has equalled the daring of the Notre Dame eleven which on successive Saturdays routed the Army, Princeton and Georgia Tech.

There are no figures available by which Notre Dame and California may be compared, but the two teams may meet in a post-season game that should come closer than any game in the past to give a line on the "national champion."

California, Michigan and Washington are the only major teams in the country that have not been scored upon, but Dartmouth, Syracuse and Wisconsin have uncrossed goal lines.

Cornell is the leading scoring team in the country with 187 points. Colgate has scored 168, Syracuse 164, the Army 162 and Notre Dame 161.

SCHULTZE SAXON COMMISSIONER

LONDON, Oct. 29.—Herr Schultz, former chief of the Saxony chancellor, has been appointed Reich commissioner to Saxony, an Exchange Telegraph dispatch from Berlin said today.

TOKIO, Oct. 29.—(Copyright)—"The Japanese earthquake effected understanding with America which the ablest men of both America which the attempted to obtain by diplomatic means," Admiral Yamamoto, prime minister of Japan, told Karl Bickel, president of United Press. In the first interview since he was made premier, he declared that Japan intends to rely principally on her own resources for rebuilding. The government will soon make public a concrete plan of reconstruction. Yamamoto expressed gratitude for American aid in the quake catastrophe.

SAXON CABINET IS DISMISSED FROM OFFICE BY FEDERAL POWER

LONDON, Oct. 29.—Captain Oldrecht, on behalf of the Federal government, handed the Saxon cabinet a note from the Reich, dismissing it from office, according to dispatches. President Zeigner and the Saxon cabinet are reported to have submitted.

ASSAILANTS HUNTED

DALLAS, Oct. 29.—Police today were searching for the assailants of two negroes victims of knife wounds. Henry Harrell, 20, was killed in a stabbing affray in a shine parlor Sunday. Thomas Griffin was stabbed to death in a fight yesterday. In both cases, the killers escaped.

Cotton Mill Expert Coming To Mexia To Help In Final Efforts To Build Textile Industry In This Community

The campaign for the successful conclusion of the movement to make the Mexia Textile Mills a reality will really be opened Thursday of this week when Mr. J. Perry Burrus of Dallas and McKinney will visit Mexia, addressing the Salesmanship Club meeting, which has been moved up from Wednesday to Thursday of this week, in order to meet Mr. Burrus' convenience. There will be no noon meeting of the Rotary Club on Thursday as that Club will have a ladies' night at the Reunion grounds, and on account of the probable size of the meeting the luncheon will be held at the Hurdleston Hotel in the room formerly used by the luncheon clubs of the city and will be at 12:15 p. m.

Mr. Burrus, in addition to being chairman of the Industrial Committee of the Texas State Chamber of Commerce, is president of the McKinney cotton mills and President of the Dallas Textile Mills. The McKinney cotton mills have been in successful operation for a number of years, the Dallas Textile Mills will begin operations in a month or two. Mr. Burrus is one of the most successful cotton mill men in Texas and has just returned from an extended trip to financial centers of the East, as well as the Textile Districts of the New England and Southeastern states.

A circular letter is being sent from the Chamber of Commerce office to the members of the Board of Directors of the Chamber of Commerce Textile Committee, the members of the Rotary Club and a few of the subscribers to the cotton mill stock. The price of the luncheon will be 75c which can be paid at the door. The time will be 12:15 Thursday, November 1st. Request is made that those desiring to attend this luncheon phone their reservations either to the Chamber of Commerce office, phone 81, Dick Wagner, secretary of Salesmanship club, phone 389 or Jerry Cason, secretary of Lions club, phone 220.

The visit of Mr. Burrus is entirely disinterested so far as he is concerned and his visit here is in his capacity as Chairman of the Industrial Committee of the Texas Chamber of Commerce, of which the Mexia Chamber of Commerce is a member and he is actuated only by a desire to forward the cotton mill development in Texas.

As only about 85 to 100 can be accommodated at this luncheon, those who want to come had better phone early.

Elks Baby Show A Great Success

Navy Anxiously Awaits News From Canal Zone As To Fate of Five Men

WASHINGTON, Oct. 29.—The Navy Department here today anxiously awaited further reports from the Panama Canal Zone, as to the fate of the crew of the submarine O-5, which was sunk yesterday in Limon Bay at the northern entrance of the canal, in a collision with the United Fruit liner Abangaree.

Five men have been reported missing and it is feared that they went down with the submarine. The missing are:

Lawrence Brown, chief electrician mate, Tingsboro, Mass.

Clyde E. Hundes, motor mechanic mate, Maninto, Ill.

Henry Brenault, torpedo man, Grand Island, Vt.

Thomas T. Metzger, fireman, Philadelphia, Pa.

Fred C. Smith, mess attendant, Oristobal, Ariz.

LATE "SCANDALS"

FORT WORTH, Texas, Oct. 29.—Prosecution on a fraud charge of E. C. Kingsbury, oil promoter and former prominent politician, is to be started in Milwaukee after the completion of Dr. Cook's trial. It is learned further that grand jury action against promoters in Fort Worth and Texarkana is expected next month. Cook's trial is not to be completed for two weeks, is indicated.

WASHINGTON, Oct. 29.—"Dis-honesty, bad judgement and carelessness is widespread in rating of compensation due disabled veterans," Dr. R. F. Souther charged before the Senate committee investigating the Veterans Bureau. He condemned the rating system of granting compensation as

Secretary of the Navy Denby, Maj. Lejeune, commanding officer of the United States Marine Corps, the U. S. Marine Band, and 1,500 marines are to accompany the Marines football team to Ann Arbor for the game with the University of Michigan on Nov. 10.

working a hardship on veterans and the government.

WASHINGTON, Oct. 29.—Harry F. Sinclair, oil magnet and lessee of Teapot Dome Naval Reserve, contributed to both democratic and republican funds in 1920, he testified before the Senate committee investigating the Teapot lease. He explained that he did so because he "had friends in both parties."

Shrine Minstrel To Be Given At Mexia High School Auditorium At Eight O'clock Tonight

Five Killed In Clash in Germany

BERLIN, Oct. 29.—Five persons were killed and scores injured in clashes between separatists and German citizens loyal to the Reich in Bauschheim, a dispatch from Mayence said today.

The fighting occurred when detachments of separatists from Ruseheim attempted to confiscate live stock from the villagers.

Employees from the stock yards repelled the first separatist attack but the plunderers returned later with reinforcements and burned buildings and crops on three estates. The wounded were transported to hospitals in Mayence.

Hoppe Favorite Before Billiard Game for Honors

NEW YORK, Oct. 29.—Willie Hoppe, world's champion at 18.2 ball line billiards, is the favorite to retain his title in the international championship which starts tonight in the Pennsylvania Hotel.

The contenders for Hoppe's title are Jake Schaeffer, Welker Cochran, Edouard Hormans, Roger Conti and Erich Hagenlocher.

Hoppe who has been the champion off and on for seventeen years, will open the tournament with Hagenlocher as his opponent.

A full house is expected to attend the Shrine Minstrel which is to be held at the High School auditorium tonight. The curtain will be raised above the downtown scene at 8:00 o'clock promptly.

Tickets are on sale today at the Cox Forrest Drug Company and according to Secretary Werner, it will be much better to secure tickets downtown. This will eliminate a rush at the window at the High School auditorium.

The Mexia Nobles have been rehearsing their parts for the past few days and it is said will go upon the stage tonight complete masters of their own minstrel.

The program is varied and should be one of the best minstrels ever put on by local talent in Mexia.

The show has been widely advertised and many out of town spectators are expected.

Sing Sing Inmate Hides in Conduit Circled by Steam

OSSING, N. Y., Oct. 29.—"I suffered something awful in there," 19-year-old Thomas Jefferson Carroll, prisoner at Sing Sing said when he was found by guards after an all night search.

Carroll had hidden in a conduit, surrounded by steam pipes beneath the new death house.

TEXAS BEHIND IN COTTON MILLS

Figures are often considered dry and uninteresting, but some times when only given superficial study, they carry volumes of information. The following tables are gleaned from the "Blue Book of Southern Progress" for 1923, published by the Manufacturers Record of Baltimore, and are taken from Government Census reports, State tax rolls, and other sources of information generally considered reliable.

Comparisons are made between the states of Georgia, North Carolina, South Carolina and Texas, in order to show comparative progress in each state, in financial resources in 1900 and 1920, assessed valuation of property in 1920 and 1922, cotton production in bales in 1900, 1920 and 1922 and the number of cotton mill spindles in operation in 1900, 1920 and 1922.

Financial Resources in 1900
Georgia \$22,562,135.83
North Carolina 15,382,182.15
South Carolina 11,824,975.70
Texas 97,763,442.31

Financial Resources in 1920
Georgia \$204,732,000.00
North Carolina 183,816,000.00
South Carolina 150,393,000.00
Texas 908,610,000.00

Cotton Production in Bales in 1920
Georgia 1,415,000
N. Carolina 925,000
S. Carolina 1,023,000
Texas 4,315,000

Cotton Production in Bales in 1922
Georgia 1,415,000
N. Carolina 925,000
S. Carolina 1,023,000
Texas 4,315,000

N. Carolina 5,150,345
S. Carolina 4,956,580
Texas 170,296

Cotton Mill Spindles in 1922
Georgia 2,555,837
N. Carolina 5,150,345
S. Carolina 4,956,580
Texas 170,296

It will be noted in the foregoing tables that, even making allowance for the size of Texas, she has far outstripped her rivals in every respect, except in the building of Cotton Mills.

In fact, compared with the other states she is an overshadowing giant except in cotton mill production.

It will be noted especially from the table showing the production of cotton, that the boll weevil has made serious inroads in Georgia and South Carolina from 1900 to 1922 and this reduction will more than likely be apparent to a greater degree in N. Carolina in 1923.

Texas has the advantage over these states in location, so far as production of the raw material is concerned, and so far as export business likely to be developed through the Panama Canal. She has better labor conditions than the Southeastern states when they first started to building cotton mills and the climate is better and more conducive to health. In fact, there seems to be every advantage in favor of Texas.

Those who have made a study of the situation believe that the excessive amount of rain fall in the South eastern states, as compared to Texas and the additional fact that timber is plentiful will tend to increase the boll weevil menace for those states to such an extent that agriculturalists will be driven to other crops than cotton. In fact, in some counties in these states, cotton farming is almost abandoned. At Enterprise, Ala., a monument to the Boll Weevil commemorating the emancipation of the farmers from the cotton growing has been erected.

The climate of Texas and the expansive of prairie land is, in the eyes of students of

the situation, almost certain to increase the preponderance of Texas as a cotton producing state. These two facts are no small consideration in the attention being given the state by the cotton mill operators.

IN THE DAYS NEWS

Henry S. Graves, who has been named provost of Yale University, is dean of the Forestry School at that institution, and a former chief of the Forestry Service of the United States. He is an Ohioan, with a Yale A. B., who studied forestry at Harvard University and at the University of Munich. In 1900, after completing his professional training, he was appointed to take charge of the forestry department at Yale. Ten years later he was chosen by President Taft to succeed Gifford Pinchot as Chief Forester of the United States. During the war he was commissioned a major in the corps of engineers and was sent to France to direct the work of the forestry troops. In 1920 he resigned as chief of the Forestry Service and two years later resumed the position of dean of the Yale School of Forestry. In the course of his professional career many honors and responsible duties have come to him from European, as well as from American organizations specializing in forestry and in conservation of natural resources.

A well known Mexia woman who raises a few chickens—for food and pastime, says she is not getting many eggs now since all of her hens have had their hair bobbed.

A Terrell Sunday School teacher thinks it a sin to walk or drive on some of our automobile speedways because it is a gamble with death.

—Terrell Transcript.
No gamble about it at all. Old time gamblers hold that it is not gambling when you have a dead thing, and in this case the pedestrian has no chance to win.

Railroad Commissioner Gilmore announces he will not be a candidate for governor next year. The announcement gives to the commissioner a rather peculiar distinction, in that he is the only man in Texas up to this time who has declared he will not run for governor, all the rest, apparently, being either outspoken candidates or in a seclusive mood.—Denison Herald.

Pity that Clarence does not get in the race. He is big enough for the job and would make the other candidates stand up and take notice.

"Many Ways of Making Mistakes" reads an editorial headline. We know enough ways of making mistakes to keep us busy explaining most of the time, so we didn't read the article.—Sam Miller in Mineral Wells Index.

And we should worry.

A Washington squirrel lost his life by reconnoitering in the capitol in search of food, but he put Capitol Hill in darkness by tampering with the wire that ended his life. Washington squirrels that search for nuts ought to keep out of the capitol until congress is in session.—Geo. Bailey in Houston Post.

Still they might find plenty of nuts in any of the other public buildings, even while congress is on vacation.

It comes from New Mexico that a man out there willed his body to a woman friend in South Carolina. Whatever can a woman want with a dead man?

Home, Sweet Home
Mineral Wells Index: Home has been defined as a place where you can scratch where it itches.

Terrell Transcript: Home is also a place where you can say "Me and Bill did it," throw your hat behind the trunk, say exactly what you think of the neighbors, drink coffee from a saucer after blowing on it to cool it, and scoop the peas from your plate with a knife.

Palestine Herald: Life is not like that in East Texas. Home is where the honeysuckle twines about the cottage, and where, when the man

comes home from his work of the day, the wife and kiddies meet him at the door and give him a loving welcome, and the house cat rubs against his leg in friendship, and the pup climbs all over him. It is the place where the best in people is manifest, and where love has full sway. The North Texas definitions shock our understanding of what home is.

It is a delectable picture, the one drawn by the East Texan domesticist. It is in sweet contrast to the chromos drawn by the Mineral Wells and Terrell artists. Home certainly is not what the Mineral Wells brother represents it as being, nor is it anything like the Terrell contemporary makes out. Even the Palestine contributor misses the mark to some extent. What he says about the pup climbing over the man of the house subtracts so much from the value of the scene he depicts that State Press feels compelled to protest. If the pup climbs over the head of the house, the result is that fleas are transferred from the dog to the man, and pretty soon the man will begin itching and make his home the kind of place the Mineral Wells savant described. Also if the dog in the house imparts any portion of its etiquette to the family, the members thereof will begin acting in the rugged manner mentioned by the Terrell realist. The Palestine viewpoint might be allowed to stand if the dog is left out of it. Put the dog out, and let the dog wagon have him.—State Press.

This seems to settle the question in all of its angles, so let's let it go at that.

The Best Foods

Children ever get—Puffed Grains

Quaker Puffed Rice seems a food confection. Each grain is an airy, nut-like puff, 8 times normal size. It is fascinating in its texture and its taste. There is no breakfast dainty ever served that children like so well.

Each grain steam exploded

Quaker Puffed Wheat is whole wheat steam exploded. Over 125 million steam explosions are caused in every kernel. They are made by Professor Anderson's process—to fit each food cell to digest.

These airy morsels, flaky and savory, make whole wheat enticing. They make the milk dish tempting. Quaker Puffed Wheat in milk is the finest night dish, and the greatest, people ever get.

Minerals—vitamines—bran

Remember those essentials. Whole wheat supplies 12 minerals which growing children must have. It supplies their need of bran. And milk is rich in vitamins.

These are factors which people should get daily and in plenty. Then serve in this delicious way.

All will revel in Quaker Puffed Grains—eat them morning, noon and night.

VIOLA DANA IN "JUNE MADNESS" SHOWS RUNAWAY BRIDE FASHIONS

George, when he wrote the scenario of "June Madness," and Harry Beaumont, when he planned the scenes for this tale of jazz and gladness, insisted upon thrills for the star's wardrobe, but of course, being more men, they couldn't specify. They knew they could safely leave this part of the photoplay's thrills to Viola Dana, the little Metro star coming to the Grand Theatre.

"This scenario," said Miss Dana, "calls for bride's costume. Error No. 1, and correct designation being runaway bride's costume. There's a difference, Mr. George, and don't forget Mr. Beaumont. Clinging bride: demure, weepy, timid things—you get the effect, of course. But runaway bride—bride giving unworthy bridegroom the ozone at the altar—ah, we must plan and pattern differently for this boydenish creature."

And so, from dainty boudoir to non-wedding wedding and beyond, Miss Dana sets this year's fashions for runaway brides. No wavering bride who plans a last minute breakaway at the altar can consider herself completely successful without in some measure following Miss Dana's "June Madness" gown suggestions.

Let a mere news writer struggle, however, to give some idea of the material and patterns of Miss Dana's wardrobe. First the star at dinner—the gown of pale pink chiffon, heavily embroidered in white silk. Panels of the material, flowing in soft drapes down the sides and back of the gown, are trimmed with the same embroidered flowers.

The wedding gown: Soft Spanish lace, with rich Duchesse satin for the foundation, and panels of the lace draped around the sides and front. The skirt, scalloped, is long, but convenient to handle when running.

Another dinner gown, this time a post-altar affair. Sleeveless bodice, with a panel forming the back, reaching to the edge of the skirt. The skirt, made in overskirt style, is finished in deep scallops. This is a suitable gown for dancing for joy at having wiped the slate clean of Mr. OWAB (meaning "Oh, what a bridegroom.") Miss Dana does such a dance, and in finishing it she wears—well, there is really a limit to what the writer can describe.

Springfield Lodge Has Great Part In Program Of Progress Of Mexia And Limestone County

By N. P. HOUX

The Masonic Order deserves much credit for its part in the upbuilding of Mexia and this section, as will be seen from a careful perusal of the following data on the different branches having organizations here.

Springfield Lodge No. 74

As the number of this lodge indicates, it is one of the oldest in Texas, having been organized at Springfield, then the county seat of Limestone county, January 24th, 1851. The first officers of the lodge were:

Judge D. M. Prendergast, at that time district judge, W. M. E. A. Magee, S. W. James M. Davis, J. W.

The lodge continued to exist and grow at Springfield for more than twenty years, or until the H. & T. C. railroad came along and missed Springfield several miles and established the town of Mexia in the early part of 1872.

The lodge was moved to Mexia in the spring of 1872, moving its building, a two story frame, and establishing its home on the site of the present new Baptist church, where it remained for several years, and the building was used not only for lodge purposes, but the several religious denominations held services on the lower floor, each denomination having a Sunday, and a private school, presided over by the late Milton Park of Dallas, a brother of our townsman, J. Howard Park, held forth there also until the public schools were organized some years later. Thus the Masonic Order had a large part in the establishment of a Christian community in this then sparsely settled part of the State.

Some years after this, when the brick building now occupied by the Farmers State bank, was built for the First National bank, the Masonic order, then consisting of the Blue Lodge and Chapter of Royal Arch Masons, bought the upstairs of the building, and had its home there until January, 1922, when the old home was sold and the three story brick building, 318 Commerce street, was purchased and the Masons now have a home that would be a credit to a city much larger than Mexia. The title to this property is vested in a board of trustees, selected from the three branches of the order, composed of R. B. Bass as chairman, Judge W. M. White as secretary, John H. Sweatt as treasurer, J. F. Denning and Major N. P. Houx.

The lodge room is on the third floor while the Mexia Shrine Club have the second floor for a meeting place.

The walls of the lodge room are lined with pictures of members who have either served as Master or were Royal Arch Masons. Some of the most prominent men of the county are there represented, such men as Capt. J. W. Fishburn, founder of the first newspaper in Mexia; Capt. R. M. Love, sheriff of the county, United States Marshal and later State Comptroller, in which office he was assassinated by a disappointed office seeker who then took his own life; L. L. Foster, one time speaker of the House and later president of the A. & M. College; Dr. M. B. Kemp, Dr. Thomas, Dr. J. M. Lewis, Dr. J. P. Cook, Dr. J. H. McCain, M. L. McDonald, W. H. Bessing, Geo. Archer, Mr. Tyus, J. A. Arvin, Judge D. M. Prendergast, founder of the Prendergast, Smith bank, John Karner, A veteran of the battle of San Jacinto, and others, prominent pioneer citizens of Mexia, now dead. There was also another veteran of the San Jacinto battle who was a member of the lodge, Mr. Alfonso Steele, who died just a few years ago.

The lodge has at present a membership of about 160, and the following are the present officers:

C. S. Phillips, W. M.

T. O. Meador, S. W.

Rodney Tidwell, J. W.

Julius Nussbaum, Treasurer.

J. Frank Cogdell, Secretary.

G. H. Pierce, S. D.

Red Fielder, J. D.

T. A. Griffith, Tyler.

Following are the living Past Masters, still members of the home lodge, but some residing in other cities: J. W. Blake, W. J. Bryant, C. J. Kaul, R. W. Cosnahan, J. F. Denning, T. A. Griffith, Dr. R. B. Jackson, N. E. Meador, J. D. Arrington, David Murphy, Julius Nussbaum, L. I. Gatlin, A. M. Stevens, J. R. Van Winkle, Major N. P. Houx, S. N. Forrest, Dr. H. Clay Watson, Jas. H. Collins, Geo. M. Tidwell, Guy Herring, M. B. Webb.

Some of the older members still living are J. B. Best, J. D. Barrett, J. W. Blake, L. B. Finch, Capt. D. F. Hughes, Carey May, Jos. Nussbaum, Capt. Rado Steele, Capt. J. P. Yeldell, H. C. Griffith, and others who might come under this head.

The lodge is steadily growing, having work one or more nights each week, and is doing considerable courtesy work for other lodges since the coming of the oil boom, and the lodge room is a popular meeting place for Masons from all parts of the country who are here helping to build a greater Mexia.

Royal Arch Masons

Mexia Chapter No. 131, Royal Arch

Masons, was organized June 18, 1874, when Mexia was yet a young village, and has grown to its present membership of about 150, and is still growing. Capt. J. P. Yeldell was in the first trio that was initiated after the Chapter was organized, forty-nine years ago, and is still a regular attendant, seldom missing a meeting.

The present officers of the Chapter are:

M. B. Webb, H. P.

C. S. Phillips.

T. O. Meador, S.

A. M. Stevens, Treasurer.

Claude Nussbaum, Secretary.

Past High Priests still living are:

N. E. Meador, F. A. Hill, Julius Nussbaum, Judge W. M. White, T. A. Griffith, Dr. R. B. Jackson, Dr. Chas. L. Watson, David Murphy, Dr. F. P. Peyton, J. D. Arrington, W. W. Barnett, J. F. Denning, L. I. Gatlin, Major N. P. Houx, Geo. M. Tidwell, Guy M. Herring, Capt. J. P. Yeldell.

Knight Templar

Coeur de Lion Commandry, Knights

Templar, was chartered April 22, 1909, and has a growing membership, drawing from the cities of Teague, Wortham, Coolidge, Groesbeck, Thornton, Kosse and Bremond, its present membership being more than 200, about thirty new members having been added during the last few months.

Present officers are:

W. R. Storey, E. C.

G. W. Perkins, Genlo.

Guy Herring, Capt. Gen.

A. M. Stevens, Treasurer.

H. W. Freeman, Recorder.

Past Commanders still on the roll are: Judge W. M. White, Dr. Chas. L. Watson, David Murphy, J. F. Denning, Dr. F. P. Peyton, Major N. P. Houx, and John H. Sweatt.

IF BACK HURTS BEGIN ON SALTS

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

(Adv.)

Latest News From The Oil Fields

Kosse Will Some Day Be A Big Oil Field

Now that the Powell oil field like Mexia has demonstrated what a wonderful producing territory is to be found along what is termed the "fault line," great interest is being manifested as to just where does the fault line run by many wide-awake operators.

Development had been going on at Powell within less than a mile of the big pay for more than twenty-five years, but it was only by accident the fountain of liquid gold was discovered the early part of this year. Now the field has reached the almost unheard of figure of over 300,000 barrels daily and many predict it will reach the half million mark. Yet with this tremendous output the Powell field is less than two-thirds of a mile wide and in many places only about a quarter of a mile wide. In length it is now more than seven miles long, and headed on towards the Mexia field. It is thought sooner or later it will connect with Currie, Richland and Mexia,—then Groesbeck and Kosse.

Speaking of Kosse, a well posted oil man who spent much time in Kosse during the excitement, writes us that he feels sure this big fault line oil field passes Kosse, either just east or west of the Humphreys-Jones gusher, which was no doubt a crevice well, the oil coming through a crevice from this tremendous fault line deposit. It is now possible to look back and analyze the work done during the boom period, and it is easy to see that with but two exceptions no drilling was done except as close to the discovery well as it was possible to get. These two exceptions are the Mason well on the Bassett track about a mile and a half northwest, and the Dr. Cook well nearly two miles to the southeast. The Mason well had a splendid showing, as did the well on the Denman survey, more than a mile southeast of the Mason. This wonderful fortune producing fault line field could easily run between these two wells where it still awaits some lucky finder. Just as easy could this dazzling fortune be concealed between the Dr. Cook well and the Foy well close in on the townsite, southeast of the discovery well. This Foy well was only drilled about 1600 feet deep but it made more gas than any well in the field unless it was the Dr. Cook well. The fact is the Foy well and the Dr. Cook well made more gas than all the other wells in the field combined, and there is ample room between these two wells for the fault line oil field to lay waiting for the man with the money and nerve to dis-

cover it. Right along to the north between these two wells is the old A. Woods homestead property. During Mr. Woods' life-time, he often spoke of finding oil showings on his land after a heavy rain. Northeast of this land in the Eutaw community are mineral springs, broken formation and geological signs indicating mineral deposits.

The Humphreys-Jones well was freaky, but the amount of oil it gushed at first indicated that it came from a source of plenty. The freakish action was doubtless caused by the oil passing through a crevice which caved as the oil rushed by when the well was allowed to flow. According to Col. Humphreys own statement at times it had the force of a subterranean cyclone and almost tore the derrick down, while at other times it was quiet. It is easy to see how a crevice well caving could act this way.

There is unquestionably a vast oil deposit somewhere close to Kosse, where this fault line runs, that will make millions for someone, some time. Who will be the lucky finder?

SAGE TEA TURNS GRAY HAIR DARK

That beautiful, even shade of dark glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—(Adv.)

GREEN WELL IN FREESTONE IS A PROMISING PROSPECT

According to parties returning from the Green well in Freestone County, rainbows are plentiful on the slush pit there, following the completion of the job there. A three weeks fishing job was completed the past week and the hole at a depth of around 3500 feet bears much promise of completing

for a producer, according to authoritative sources. The well is being drilled by Ohio parties. Mr. Carpenter is trustee. It was spudded in June 26, 1922. Gas was noticeable twice on the way down. The Austin chalk was found at a depth of 2540 feet and passed out of at around 2900. At around 3500 feet, the drill was passing through hard black shale and gumbo. The Green well is about 5 miles east of Teague and about 20 miles east of here.

To Enforce Blue Laws in Corsicana What A Woman Can Do With Her Feet

CORSICANA, Texas, Oct. 29.—If you've got the blues steer clear of Corsicana on Sunday.

For a set of Sunday closing laws county attorney Ballard says he is going to strictly enforce are of the deepest indigo shade.

They say:
That drug stores will be allowed to sell nothing but drugs, medicines and milk and cream drinks on Sundays. Sale of cigars and cigarettes will not be tolerated.

Restaurants, boarding houses, and similar establishments come under the gun too.

To Play Golf With A "Doctored" Ball

MINERAL WELLS, Texas, Oct. 29.—The second annual Invitation Golf Tournament of the Mineral Wells Golf and Country Club opened here today to last three days.

Some seventy five or more entrants are expected to be on the links by this afternoon.

A new wrinkle in the ancient Scottish-pastime will be tried out on the links during the tournament when a ball, treated by a special preparation, the invention of a local man, will be put into play. The ball is coated so as to be plainly visible at night. Should the innovation prove practical it will revolutionize the sport, the inventor claims.

ANTI BOLL WEEVILERS HEADQUARTERS IN N. O.

NEW ORLEANS, La., Oct. 27.—The permanent organization to fight the cotton boll weevil will be known as the National Boll Weevil Control Association and will have its headquarters in New Orleans, the three day conference of representative business, agriculturists and government experts which ended here yesterday, decided. The organization is to be under the advisory administration of a committee of twenty-two men to be chosen from the ranks of the enterprise represented at the convention.

At a meeting of the committee to be held Nov. 7, a salaried manager for the New Orleans office will be chosen.

GRANGER, Texas, Oct. 29.—Armless—yet she writes, sews and feeds herself.

Miss Nanny Cook, 21 years old Granger girl, has accomplished these apparently impossible feats—all with the use of her toes.

Handicapped by the loss of her arms since birth, and with her legs deformed, Miss Cook determined that she would not be overcome by these obstacles.

Day after day she cultivated the use of her toes until she could write. Then she tried sewing and in time developed herself until she is no longer helpless. She is a high school graduate.

Few are her equal with a needle. A beautiful nightgown, made by her toes won first prize in the woman's department exhibits at a recent Texas state fair.

Americans Applying For Naturalization

HOUSTON, Texas, Oct. 29.—Applications for United States citizenship are coming in at an unprecedented rate, according to federal district clerk Masterson here.

Twenty-six foreign countries are already represented in the application blanks.

Four American women, having married foreigners, are among those applying for citizenship papers.

Hampton Steele, president of the Native Sons of Texas, of Thornton, spent Friday and Saturday in Mexia, visiting friends and attending to business in connection with the Native Sons.

C. M. Church, foreman of the News mechanical department, took in the fair Sunday and will spend a couple of days with his family in Fort Worth.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded to summon S. W. Johnson, J. W. McWilliams, H. P. Tate by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Limestone County, to be held at the Court House thereof, in Groesbeck, Texas, on the first Monday in November, A. D. 1923, the same being the 5th day of November, A. D. 1923, then and there to answer a petition filed in said Court on the 12th day of October, A. D. 1923, in a suit, numbered on the docket of said Court as No. 4007-B, wherein A. E. Rosson and J. L. Cogdell are Plaintiffs and S. W. Johnson, O. L. Lusk, W. R. Jones, J. W. McWilliams, H. P. Tate, and Texas Trust Company are Defendants, and said petition alleging that on January 21, 1921, plaintiffs jointly executed a contract and contract for lease, to be executed and delivered to defendant, S. W. Johnson; that said contract is of record in Volume 111, page 206, deed records of Limestone County, Texas. That in pursuance of said contract plaintiffs did execute and deliver to S. W. Johnson (whose initials in A. E. Rosson instrument by inadvertence were reversed and show as W. S. Johnson) Oil and Gas leases covering Blocks or lots 5, 7, 13, 15, 19, 25, 27 and South half of Lots 20 and 25, and 200 acres out of the P. Lloyd and D. Varela surveys, together with lots 47, 48, 49, 50, 51, 52, 53, 54, 55 and 57 (as shown by map and plat of the A. E. Rosson 1073 acre ranch and a portion of the J. L. Cogdell Estate. That the total acreage of both leases was 684 acres, 40% being out of the Rosson land and 234 out of J. L. Cogdell Estate, that the lease contracts are recorded in the deed records of Limestone County, Texas, in Vol. 112, page 173, and Vol. 113, page 387, which records give complete descriptions of the lands leased. Each of said leases provides as follows: "Shower the first well drilled on the above described land be a dry hole, then and in that event if a second well is not begun on said land within twelve months thereafter, this lease shall terminate as to both parties, unless the lessee, on or before the expiration of said twelve months, shall resume the payment of rental in the same manner as hereinbefore provided."

That said S. W. Johnson and his assigns did drill one well on said lands in accordance with the conditions of said drilling contract and leases; that said well was drilled and abandoned before and on the 15th day of August, 1921, same being a dry hole or non-producing well.

That no other well was begun on said premises until more than one year after the abandonment of said well on August 18th, 1921; that no one paid any rental on said land or any portion of it, on or before the expiration of one year after the said abandonment, nor has any one paid a rental thereon until this day, thereby forfeiting all rights under the said leases.

Plaintiffs further aver that said S. W. Johnson and his assigns assigned to defendants W. R. Jones, O. L. Lusk, J. W. McWilliams and Texas Trust Company, at several and diverse times various and diverse interests in various and different and in overlapping acreages covered by the above said leases and leased premises; that though some of them have assigned portions of their interest and released parts of their respective interests, yet each party named still holds in his name certain purported respective interests in parts of the above said premises and leased acreage, having failed and refused to release same in accordance with the law applying to lessees and their releasing such interest on forfeiture of same or an abandonment of efforts to develop same. That said H. P. Tate avers certain interests existing under a memorandum agreement between him and W. C. Rosson, who had no legal right or power to bind said plaintiffs or either of them, thereby deriving no interest under any instrument of writing given and executed by W. C. Rosson.

Plaintiffs aver that they have been damaged in a sum of \$500.00 in that they expended money and attorney fees in bringing this suit as well as loss of time to themselves, all of which damage amounts to \$500.00 or more.

Wherefore, premises considered, plaintiffs pray the court that citation issue to defendants, and that upon a hearing that they be granted judgment declaring all said leases to S. W. (W. S.) Johnson, together with all assignments under said leases or either of them, null and void and of no further force or effect, and for judgment in the sum of \$500.00 as damages against defendants for their having failed and refused to release their purported in-

terests in and to said lands, and for their costs in this behalf incurred, and such other relief as they may be entitled.

Herein fail not, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Groesbeck, Texas, this 12 day of October, A. D. 1923.

NOTICE OF SHERIFFS SALE

THE STATE OF TEXAS,
County of Limestone.

Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable District Court of Limestone county, of the 13th day of October, 1923, by the District Court of said Limestone county, for the sum of Seven thousand, Two Hundred Sixty dollars and costs of suit, under a vendor's lien, in favor of J. Sanford Smith and Phil Karner, in a certain cause in said court No. 2885, and styled J. Sanford Smith and Phil Karner, vs. C. I. Spencer, A. R. Jameson and D. L. Campbell, placed in my hands for service, I, Whit Popejoy, as sheriff of Limestone county, Texas, did, on the 15th day of October, 1923, levy on certain real estate situated in Limestone county, Texas, described as follows, to-wit:

Being lots fourteen (14) fifteen (15) seventeen (17) and eighteen (18) in division S. in the city of Mexia, Limestone county, Texas, and levied upon as the property of C. I. Spencer, A. R. Jameson, and D. L. Campbell, and that on the first Tuesday in November 1923, the same being the 6th day of said month, at the court house door of Limestone county, in the town of Groesbeck, Texas, between the hours of 10 a. m. and 4 p. m. by virtue of said levy and said order of sale, I will sell said above described real estate at public vendue, for cash, to the highest bidder as the property of said C. I. Spencer, A. R. Jameson and D. L. Campbell.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Mexia Daily News, a newspaper published in Limestone county.

Witness my hand this 15th day of October, 1923.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded, that you summon by making publication of this Citation in some newspaper published in the County of Limestone if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof, Jesse Bond and Abe Goodman whose residence is unknown, to be and appear before the Hon. County Court, at the next regular term thereof, to be held in the County of Limestone, on the 5th day of November, A. D. 1923, same being first Monday in November, 1923, at the Court House thereof, in Groesbeck, then and there to answer a petition filed in said Court, on the 25th day of July A. D. 1923, in a suit numbered on the docket of said Court No. 948, wherein D. A. Kerzee is plaintiff, and Jesse Bond and Abe Goodman are defendants.

The nature of the plaintiff's demand being as follows, to-wit:

Plaintiff alleges, that on October 25th, 1922 defendants made, executed and delivered to this plaintiff their certain promissory note for the sum of \$633.17, payable to the order of plaintiff at Mexia, Texas, due and payable on the 10th day of March, 1923 bearing interest at rate of 10% a year from its date until paid, and providing for 10% additional on the amount of principal and accrued interest as attorneys fee and to pay all expenses of collection and costs of court, if it should not be paid at maturity, whereby defendants became liable and bound, individually and collectively, to plaintiff and promised to pay to plaintiff the sum of money specified in said note, all accrued interest, and attorney fees and costs of collection, including court costs, according to the tenor and effect thereof.

That plaintiff has placed said note in the hands of attorneys for collection and has contracted and agreed to pay them 10% stipulated for in said note, same being reasonable and the usual and customary attorney fee in such matters. That said note is past due and unpaid; and defendants, though often requested, have failed and refused heretofore and now fail and refuse to pay said note or any part of it, to plaintiff's damage in the sum of \$1000.00, in that he has lost his principal sum, his interest thereon and the investment and earning power of said principal and interest since March 10th, last, and has contracted to pay the attorney fee provided for in said note and is under obligations to pay the court costs, etc.

Wherefore, plaintiff prays the court that defendants be cited to appear and answer this petition, and that he have judgment for his principal sum of \$633.17, for interest thereon since October 25th, 1923 at rate of 10% a year, for his attorney fees as provided for in said note, for his costs of suit, for all costs expended in this behalf, and for his damages over and above these items, making a total judgment of \$1000.00, and for such other and further relief, general and special, in equity and in law that plaintiff may be justly and legally entitled to, and in honor bound will ever pray, etc.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this writ with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Groesbeck, this, the 11th day of October, A. D. 1923.

day of November, A. D. 1923, then and there to answer a petition filed in said court on the 6th day of October, A. D. 1923, in a suit, numbered on the docket of said court as No. 3913-B, wherein Mamie Collins is plaintiff and David Collins is defendant and said petition alleging Plaintiff sues defendant for divorce on the grounds of abandonment for more than three years.

Herein fail not and have before said court, at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same.

Given under my hand and the seal of said court at office in Groesbeck Texas, this 6th day of October, A. D. 1923.

TEHUACANA.
(In Dallas News)

The first mention of the name of Tehuacana by historians was back in 1797 when Phillip Nolan made a trading expedition for the purpose of obtaining wild horses for a Louisiana regiment, from the then Spanish territory. During this expedition he made a good map of the country for the purpose of trading with the Indians. This map located a tribe of Indians, called the Tehuacanas, on that part of the country between the Brazos and Trinity Rivers. These Indians had their headquarters near the place where Waco is now located. A creek five or six miles northeast of Waco is called by the name of Tehuacana. The Tehuacana Indians no doubt had their hunting ground all over the territory between the Brazos and Trinity Rivers. In this section about forty-five miles northeast of Waco is a ridge of hills consisting of a high knob (now Bald Hill) and two distinct ridges, on the sides of which are several good springs of living waters. Here the Tehuacanas located and erected their wigwams near the springs. Here the first white men found them on their surveying expeditions about the year 1830.

Finding the Tehuacana Indians on the ridge of hills these men, in describing the country, named the ridges Tehuacana Hills. For a number of years this section was known as Tehuacana Hills. Soon after the white men found the Indians, the Cherokees, then living in Cherokee County, had a quarrel with the Tehuacanas, but a war at that time. In the meantime the Lipans made a raid over in the Cherokee country and stole a large

herd of ponies and drove them off to the country beyond Parker County. The Cherokees followed, but failed to catch the thieves. They turned to go back home and decided to return by the Tehuacana Hills, being angry at their failure to capture their ponies, and remembering their old grudge against the Tehuacanas, they made an attack on the Tehuacanas, who were unprepared and not expecting it. The Cherokees killed the entire tribe, excepting about six braves and six or eight squaws. The Cherokees burned most of the wigwams and papooses while hid in their wigwams. One Cherokee would gather up an armful of grass, another would take a chunk of fire, the first would pile the grass in the wigwam, the other placed the fire and soon the work was done and the Tehuacana tribe was no more.

It is said that the youngest son of the old Tehuacana chief was carried off by those who escaped and afterward joined the Comanche tribe. Maj. John Boyd of Kentucky having obtained a grant of land from the Mexican Government, located his league east of the Tehuacana Hills and including most of the hills. He located his land in 1836, but did not move here until 1847. By this time the country was reasonably safe from the Indians.

Some time in the early 50's, a son of Maj. Boyd was standing on the high bluff on the west side of the hills. He suddenly saw an Indian emerging from the mesquite thicket, who walked about twenty steps from the bluff and stood still, looking over the landscape where the Tehuacana village once thrived near the big spring. The Indian stood about half an hour taking in all the changes that had been made.

Young Boyd approached him and spoke to him, but he turned not his head, nor even glanced his way, but suddenly turned about face and went over the bluff. Young Boyd watched him going west and he never for once turned his face back to the hills of his people. So far as we know this was the last of the Tehuacanas, a quiet and friendly tribe to the white man, who never came back to his old hunting grounds.

In the year of 1921, I learned that there was a very old Indian chief living near Anadarko, Ok., by the name of Jim Tehuacana. I wrote to the Indian Agent at that place and requested him to get the history of this old chief. He very kindly replied that Jim Tehuacana died on Aug. 8, 1918, at the advanced age of over 90 years. It is supposed that he was the young chief that escaped from the Cherokees. After Maj. Boyd moved to Tehuacana Hills, the capital of Texas was to be located. He placed Tehuacana Hills on the ballot, but Austin beat Tehuacana Hills by two votes and the capital went to the banks of the Colorado River.

In the year 1869 the Cumberland Presbyterian Church of Texas decided to locate a church college and Tehuacana Hills again was placed on the ballot, and this time it won over the other points. In September, 1869, the school began under the name of Trinity University. Around this school a little town sprang up and it was called at first Tehuacana Hills, but at present it is known as Tehuacana. This is how Tehuacana got its name.

CARD OF THANKS

To all who were so thoughtful and tender, in our recent bereavement in the loss of our loving companion and daughter, Mrs. H. F. Phillips, we wish to extend our heart felt thanks. Our grief is too deep for earthly sympathy to extract from our stricken hearts, but the act of friend, the word of solace spoken and the lovely flower, are balm that soothe and evidence of man's humanity to man which make us grateful, indeed. May God bless you. H. F. Phillips, her husband.
